Objective

To work in a firm with a professional work driven environment where in there is a possibility for me to utilise and apply my knowledge and skills in fulfilling organisational goals.

Personal Details

- Date of Birth : 17/02/2006
- Nationality : Indian
- Gender : Female
- github : github.com/prasanna919

Education

- Dadi Institute of Engineering and Technology BTech
Computer Science Engineering
CGPA:8.6 (Till-3.2) 2023-2027
- Narayana Junior College Intermediate
AP Board
91.4% 2021-2023
- Narayana School
SSC
100% 2020-2021

Projects

- Enhancing Safety and well-being for Children, Working women and Elderly with IOT and GPS Tracker Technologies
I have been worked on IOT Project on topic of Safety for Society . This project explores the application of IOT and GPS tracker in safeguarding children , supporting working women , assisting the elderly .
- Proactive AI-Driven Deepfake Detection System
Developed an AI-based system to detect deepfake and morphed facial images using image analysis and facial feature extraction techniques.Enhanced digital security by supporting early detection of forged visual content and unauthorized identity usage.

Skills

- Programming Languages: C, Python, Java
- Web Technologies: HTML, CSS, JavaScript (Basic)
- Database: MySQL
- Tools & Platforms: Git, GitHub, VS Code

Internship

- Cybersecurity Intern – Skill Craft Technology (May 15 – June 14, 2025)
Explored Network Security principles, system vulnerability analysis, and secure coding practices. Understood key cybersecurity tools and attack vectors through guided labs and project-based learning.

Publications

- Published an abstract on “Enhancing Safety with IOT and GPS Tracker Technologies” at NCTCT-2k25.
- Published an abstract on “Proactive AI-Driven Deepfake Detection System ”at NCTCT-2k26.

Certifications

- Java Complete Course using Visual Studio Code
- Artificial Intelligence using Infosys springboard
- Python Essential Training using LinkedIn
- Completed Google Android Development and AI-ML Virtual Internships through EduSkills
- Achieved Elite Certification in NPTEL's The Joy of Computing Using Python.

Achievements

- Participated in the IEEE Xtreme Coding Competition
- Selected for the 3-Day Google AI-ML Tech Camp conducted by EduSkills.
- Actively engaged in IEEE student chapter activities, technical events, and professional development programs.
- Published research abstracts at NCTCT-2K25 and NCTCT-2K26

Languages

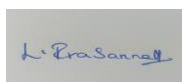

- English
- Telugu
- Hindi

Hobbies

- Playing games
- Watching movies

Declaration

- I hereby declare that all the information given above is true and correct to the best of my knowledge.
